

Indonesia Business Seminar

March 11, 2010 (1:30pm – 5:00pm)
Little Red Dot (Seminar Room), 10th Floor
International Enterprise Singapore
230 Victoria Street, Bugis Junction Officer Tower
Singapore 188024

ASME, Network Indonesia, BKPM together with Angeline Suparto & Co is organising an Indonesia Business Seminar.

Indonesia is not the easiest place in the world to do business. Currently Indonesia ranks at 42 in The World Competitiveness Scoreboard, in stark contrast to countries such as Australia (7), Singapore (3) and the US (1). At present, with its combination of traditional cultures, bureaucracy, legal uncertainty and social instability, Indonesia appears to be a rather hostile place for trade and business. Indonesia is currently undergoing a radical transition towards becoming a more modern and efficient economy.

Nevertheless, with proper understanding of cultural, social and legal-regulatory environments, starting a business and investing in most parts of Indonesia can be relatively safe and profitable. In recent decades, Indonesia has seen major investments by large multinationals, small businessmen and individuals.

Join us in this seminar and see what to expect and how you can invest successfully in Indonesia
